AUTOMATIC BODY SCAN

The Real Pro Hot Stone has an automatic body scan mode. It uses a grid of pressure sensors to detect your size and the position of your shoulders and spinal column and adjust itself accordingly. This gives you an individual massage exactly where you want it.

TRADITIONAL MASSAGE STYLES

Like a real masseur, the Real Pro Hot Stone masters not only hot stone treatment, but also all traditional techniques. Whether it is shiatsu, deep, neck, shoulder, back or Junetsu massage, the variety guarantees you a range of relaxation that is always tailored to your specific needs.

A REALLY SPECIAL STRETCH PROGRAM

Sitting or standing for long periods or uneven strain on the body can lead to hip and lumbar problems. You can prevent this using specific relaxing stretches for the lower back. The Real Pro Hot stone has a special stretch program which gently stretches your pelvic muscles using comfortable air cushions in the back-rest and seat - giving you the energy to start over again.

A PAMPER PROGRAM ALL OF YOUR OWN

You can also put together your own individual pamper massage and enjoy it again and again thanks to a handy save function. Maybe you fancy a relaxing neck and back treatment followed by a deep massage. The Real Pro Hot Stone makes your wishes come true and offers perfect relaxation.

SIT OR LIE IN PERFECT COMFORT

The Zero Gravity Position on the Real Pro Hot Stone gives a feeling of weightlessness. This position is very good for taking strain of the spinal disks. This makes it very comfortable and helps you just chill out and relax.

YOUR OASIS OF PEACE

The Real Pro Hot Stone has a timelessly elegant design in black or ivory faux leather and compact design, making it a stylish addition to any living space.

SIMPLE TO USE

Relaxation begins with simple, intuitive operation. So all the functions of the Real Pro Hot Stone are clearly displayed on the remote control. There is also a voice output option which explains which option you have selected.*
