

Esprit Collection:
Eclipse

Welcome to the perfect fit for your body, budget, schedule and style.

The Human Touch® Eclipse is not your grandfather's old massage chair (as much as he wishes it were). In just 15 minutes per day, this stylish, technologically advanced chair expertly melts away the tension and stress of everyday life, alleviating pain, improving relaxation and soothing sore muscles.

Grab a seat and let the patented human touch massage system™ do what it does best—replicate the therapeutic techniques used by back and spinal care professionals. The Eclipse follows the contour of the spine to provide a targeted, effective massage once available only in chairs twice its cost. While it may not cost a fortune, its SofSuede upholstery looks and feels like a million bucks. So discover the Eclipse and enjoy a beautiful massage from a beautiful chair.

More Features For More Comfort

Features your couch can only dream of

There's a reason the **Eclipse** is the most popular piece of furniture in any room. In fact, there are many reasons. These advanced, fashion-forward chairs are loaded with the things dreams are made of. Or should we say – sweet dreams.

3 INVIGORATING AUTO-MASSAGE PROGRAMS

Choose from three 15-minute massage programs, all tailored to your back needs. Get a great total-back massage, or focus your massage on your upper or lower back.

4 PROFESSIONAL MASSAGE TECHNIQUES

Target any of the four expert massage techniques to your back's own trouble spots, for powerful, therapeutic relief. Massage techniques include Rolling, Kneading, Compression and Percussion.

CUSTOMIZE YOUR MESSAGE

Use the Partial and Position buttons to target your massage to a specific area, then choose from three stationary massage modes.

REMOVABLE MESSAGE-SOFTENING PAD

Need a deep, penetrating massage to soothe aching muscles? Or maybe just a light, invigorating massage? Easily control your massage intensity with the removable massage-softening pad.
