Cyber-Relax EC-2700

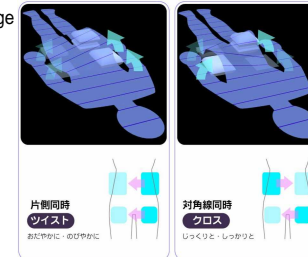

【New Feature】Total Body Stretch

The shoulder airbags sandwich and hold the area around the shoulders, while the calf airbags grip and stretch the calves. The knead balls then roll the waist, creating a 'total body stretch' experience.

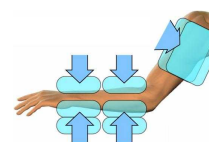

【New Feature】Twist Massage

A twist massage is realised by simultaneously enlarging the hip/waist airbags on one side, or by simultaneously enlarging them in a diagonal line.

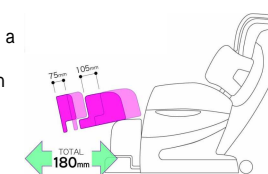

<Proprietary Feature> Total Arm Massage

By simultaneously operating the arm and shoulder massage, a total arm air massage can be realised, kneading and relieving fatigue of the arm.

【New Feature】Perfect Fit Footrest

A 2 step slide mechanism ensures a massage in a comfortable position even for people of large build.

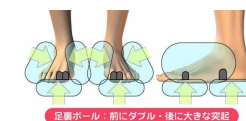

<Proprietary Feature> New Shoulder

In concert with airbags located in the seat backs, we have been able to simulate the massaging of the large area around the shoulders.

【New Feature】Sole Pressure Balls

The sole pressure balls stimulate and massage the toe joints and the arch of the foot.

New Display Remote Control

The user interface has been further improved by using larger characters and icons for added user friendliness.

Specification (Estimated)

- ▶ Dimensions (Estimated) : [Non-reclined position<foot-rest stored->
W75xD124xH121 (cm)
: [Reclined position<foot-rest reclined->
W75xD201xH78 (cm)
- ▶ Weight (Estimated) : 81 kg
- ▶ Rated Time : 30 minutes
- ▶ Power Source : AC100V (50/60Hz)
- ▶ Power Consumption : 110W

New Design!

Simple and Stylish Design !

By integrating the shoulder and arm parts into the seat itself, we have simplified and completely transformed the stiff image portrayed by the robotic and mechanical style of older model. The result is a designer chair with a softer image designed to naturally blend in with any living room.

New Concept!

Air Magic ! 《New Feature》'Total Body Stretch'

Experience a complete and comprehensive air massage with the 'Total Body Stretch' feature together with the waist twist massage (twist and cross), foot massage with double stretch feature, and the new shoulder and arm massage to knead the entire arm.
