

This is the least stressful and most comfortable position for an effective massage, the Zero Gravity Position.

Zero Gravity Comfort

Experience the position recommended by the aviation and aerospace industries.

Rotating armrests make it easier to sit down and get out of the chair.

The backrest, footrest, armrests, and seat adjust automatically from upright to fully flat for maximum comfort.

One-Button Zero Gravity

This is the position the human body naturally assumes under the micro-gravity conditions of outer space.

The seat automatically reclines 30° to the ideal position for relaxation and massage.

Ideal back positioning ensures proper contact with the rollers and a more beneficial massage.

Firm Kneading

4 massage rollers seesaw to effectively massage shoulders and lower back.

Kneading Course feels as if hands are gently massaging. Tapping Course recreates the closed-fist percussion technique of a professional massage.

Kneading Action

Tapping Action

Professional-Quality massage for the entire body.

Combination massage stimulates with deep Pressing actions and Kneading that improves blood circulation.

Firm contact between shoulders and massage rollers ensures proper and effective relief of stiffness and tension.

Premium back pad softens massage, but can be removed for greater stimulation.

Undulating Shiatsu action on the soles of the feet emulates the techniques of a professional human massage.

Each foot is securely cradled by airbags that inflate and deflate to mimic the alternating compression technique of a live massage.

Outer Sole Shiatsu

Center Sole Shiatsu

Inner Sole Shiatsu

Shiatsu nodes provide a deep massage to the soles. Side airbags inflate to further stimulate calves.

Airbag massage

Shiatsu massage

Auto Alignment

Body-Shape sensor automatically adjusts to the user's shoulder height.
