Black

### Remote Control Recline Adjustment

Use the remote control to adjust the angles of the back and foot rest to fit your body perfectly.

### Footrest Length

The footrest can be moved forward or back to accommodate people of all heights.

The INADA Chair i.1 made its debut in Japan in 2000 as the world's first massage chair to realize truly customized massage programs. With State-of -the-art infrared technology, this chair individually tailors the massage to fit your body and needs.

A new full cover design molded to the legs presses and releases the legs from three directions, working from the ankles up to release tension in the calves and improve circulation in the lower leg.

### Healthcare Programs:

1. Fullbody Relief: Relaxes the muscles that affect your whole body and alleviates fatigue by stimulating shiatsu points.
2. Stiff Shoulders: Helps to relieve tension and stiffness around the neck and shoulders.
3. Lower Back Tension: Recommended for lower back muscle pain and fatigue.
4. Legs and Hips Fatigue: Stimulates the shiatsu points that relieve muscle fatigue in the legs and hips.
5. Acupressure: Slow motion shiatsu massage for entire body.
6. Morning: Uses a European massage technique moving from the extremities inward, toward the body's center. Recommended massage for the first thing in the morning.
7. Night Time: Uses a Chinese massage technique moving outward, from the center of the body toward the extremities. Recommended for use before bed.
8. Seat: Combination of vibration and air massage directly stimulates the muscles of the seat area.

The compact, full-feature remote control makes operating the INADA Chair simple.

### Remote Control (front cover)

**Display**  
Displays the program, the pressure point being massaged and the time remaining.

**Power**  
Turns the power on and off. If the button is pressed during operation, the massage rollers will return to the start position before it is turned off.

**Footrest**  
Adjusts angle of the footrest.

**Shoulder Position Adjustment**  
If necessary, finely adjusts the start position after shiatsu point locating has been completed.

**Healthcare Programs**  
Select one of the five healthcare programs.

**Cancellation of Back vibration**  
Select one of the five healthcare programs.

**Well-Being Programs**  
Select one of the three well-being programs.

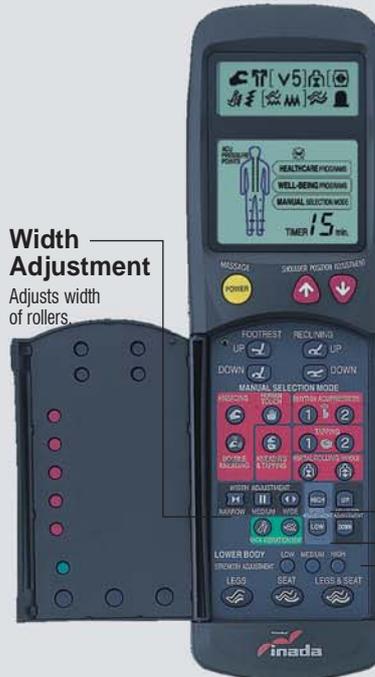

### Open panel cover for Manual Selection Mode. Customize settings in manual selection mode.

**Width Adjustment**  
Adjusts width of rollers.

**Up/Down Adjustment**  
Adjusts the vertical position of the rollers.

**Speed Adjustment**  
Adjusts the speed of Kneading, Tapping(1) and Kneading & Tapping operations.

**Lower Body Strength Adjustment**  
Adjusts intensity of air massage.
