ZERO-GRAVITY RELAXATION CHAIR

THE FEELING OF ZERO GRAVITY

SANYO'S YEARS OF EXPERTISE AND EXPERIENCE IN SEEKING THE ULTIMATE SEATING COMFORT
HAVE RESULTED IN THE NEW ZERO-GRAVITY RELAXATION CHAIR.

ITS MODERN DESIGN SUITS ANY INTERIOR DECOR,
AND THE AIR MASSAGE GENTLY EASES BODY TENSION.

NOW IS THE TIME TO INDULGE IN THE SUPREME BLISS OF ZERO-GRAVITY RELAXATION.

A modern lightweight monoshape where all elements blend together and where the user appears to float in a comfortable suspension.
The chair features a visual bottom line that shows how it will glide back into the ultimate zero-gravity pose, thus inspiring comfort even before sitting in it.
The minimal ground contact appearance gives the chair a very light feeling.

A stylized, handwritten signature in white ink that reads "D. Symons".

ZERO-GRAVITY POSITION
FOR THAT FEELING OF WEIGHTLESSNESS.

In the zero-gravity position, the seat moves to the ideal 30-degree angle, to appropriately distribute body weight and reduce body load, delivering the ultimate in comfort. It resembles floating in space — a naturally comfortable position with the chair perfectly balancing your body. This can be achieved from any position with just one touch of a button.

RECLINING SYSTEM PROVIDES TRUE SEATING COMFORT.

FREELY-ADJUSTABLE RECLINING MECHANISM FOR SELECTING YOUR PREFERRED POSITION.

Electric-powered seat, back and footrest move smoothly with continuous settings. Relax in your favorite position.

ADJUSTABLE HEADREST ANGLES.

The headrest angle can be freely adjusted for relaxing, watching TV or reading.

INDEPENDENTLY-OPERATED FOOTREST.

The footrest can move independently so that a personal favorite position can be attained.

BUILT-IN CONTROL PANEL FOR EASY OPERATION.

The built-in control panel moves with the armrest, allowing for easy operation in any position.

- 2 programs (Stretch)(Relax)
- One-touch operation moves to Home or Zero-Gravity position
- Independent footrest adjustment button
- Reclining adjustment button
- Emergency stop button for safety
- Power button with indicator

INTERLOCKING SEAT & BACK MOVEMENT FOR THE BEST POSITION.

The seat and back move together in a smooth, stepless reclining motion. The armrests also adjust automatically as the chair reclines, maintaining the appropriate position to provide maximum comfort.

WIDE 600mm (24-INCH) SEAT.

The wide, luxurious seat is designed to accommodate most body types.

AIR MASSAGE RELIEVES FATIGUE THROUGH STRETCHING.

EIGHT LARGE, INDEPENDENTLY-INFLATED AIRBAGS.

Eight large airbags are built into the chair and independently inflate and deflate in predetermined sequences.

They stretch muscles to loosen tension with a soft massage that improves circulation and relieves body fatigue.

Airbags are also located under the thighs and calves to give a full-body stretch.

- ① ② : Reduces tension by stretching waist and back.
- ③ ④ : Loosens muscles between thighs and hips while tightening hip muscles.
- ⑤ : Stimulates calf muscles and reduces tension.
- ① - ⑤ : Helps the body to recover its balance by uniformly loosening tension and muscles in major parts of the body.
- ⑥ ⑦ : Obtains a stretching and twisting effect by inflating the airbags on both sides alternately or simultaneously.
- ⑧ : Helps by stretching the spine to reduce distortions suffered often in the back.

TOTAL COMFORT FROM UPRIGHT TO FULLY-FLAT RECLINING.

A gentle full-body stretch with fully-flat reclining results in a leisurely mood, and an enhanced air-only massage relieves body fatigue. This is what a Relaxation Chair is all about.

TWO AIR MASSAGE PROGRAMS — STRETCH AND RELAX.

Choose from two programs — Stretch for loosening tension by stretching muscles, and Relax to improve circulation with a softer touch.

SPECIFICATIONS

Power consumption	110W
Rated time	30 min.
Timer	Approx. 15 min.
Dimensions	780mm(30 11/16")[W]×1,030mm(40 9/16")[D]×1,230mm(48 7/16")[H] * When not reclined (with footrest retracted)
	780mm(30 11/16")[W]×1,740mm(68 1/2")[D]×715mm(28 1/8")[H] * When reclined (with footrest set horizontally)
Weight	Approx. 50kg(110 lbs.)
Upholstery	Leather
